Retiree Reemployment Notification
Non-PERS Eligible Position

PERS retirees are prohibited from reemployment with a Nevada public employer except as provided by NRS 286.520. This provision allows a retiree to receive a monthly PERS benefit while reemployed with a Nevada public employer if the retiree has been retired for a minimum of 90 days and the position does not require reenrollment back into PERS.

Eligibility for PERS enrollment is based on the type of position in which the retiree has been hired. In some cases, the retiree is limited on the amount of hours he or she may work in either a fiscal or school year in order to avoid the suspension of the monthly benefit and reenrollment into the system. In all cases, retirees reemployed with a Nevada public employer are limited in the amount they can earn in a fiscal year. Contact the PERS office for the earnings limitation currently in effect.
